

RECOMMENDATION

Based on the completed Nursing Education Test Scores, your staff has not completed the education.

Recommendation: Your education summary is incomplete at this time. We are happy to help you develop a plan to initiate and engage the education for your clinicians. Please consider introducing the education to your staff in the near future as these comprehensive education and training modules are designed to help improve nursing practice and patient outcomes.

- **Deliverable:** If you need assistance introducing the educational platform or any of the other components, please contact your Program Manager, Lisa Marsek. Once your clinicians have completed the education the report can be completed and promptly emailed to you.
